Graph Colouring :

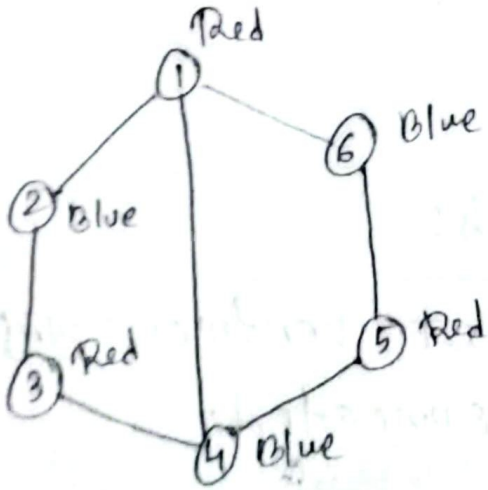

- Have to be effecient
- কোনো node এর সাথে যতগুলো node connected থাকবে, তারা same colour হতে পারবে না।
- Chromatic Number = number of minimum colour.

Ex. (i)

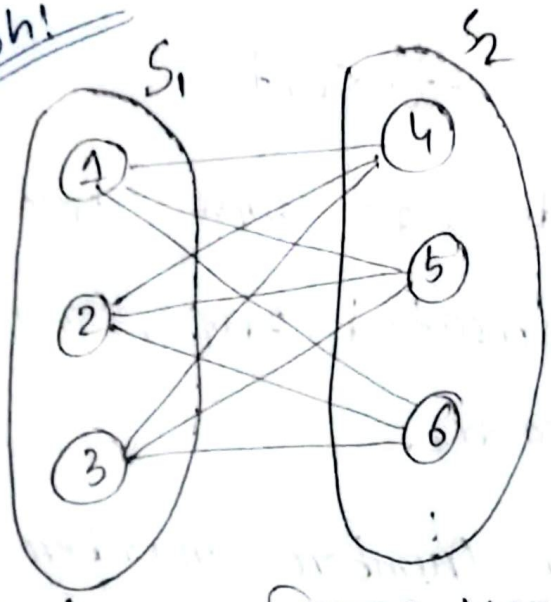

; Chromatic Number = 3

(ii)

; Chromatic Number = 2

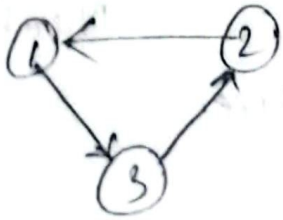

Bipartited Graph:

(*) set এর ভিতর vertices গুলোর connected থাকবে না।

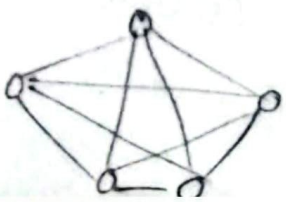

Cyclic Graph:

- যেখানে এমন vertix এ back করবে,

Completly connected Graph:

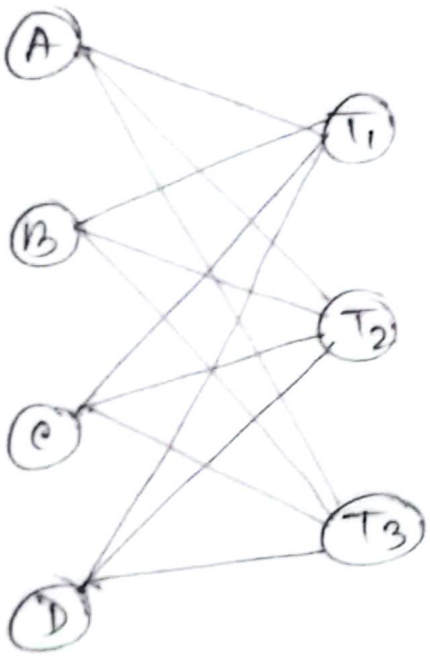

- এর vertices গুলোর মধ্যে connected.

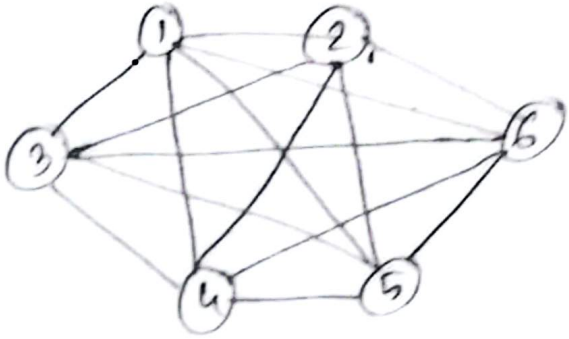

HW:

Find: Cromatic Number:

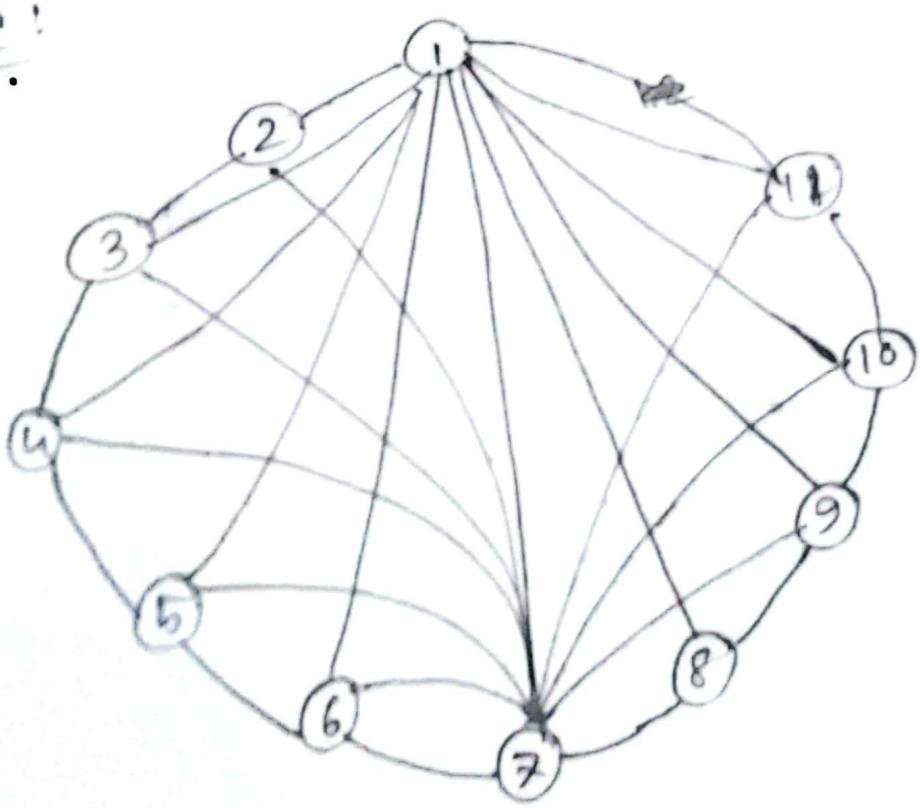

Bipartite:

Completly connected:

Cyclic:
