C.D

26.10.2026

Tree: (using nodes & edges)

Example:

- Binary tree: always have two child of parents.

- Complete Binary tree: Each parents have two childs.

m-ary chain:

- m সংখ্যক child থাকলে তাকে m-ary chain বলে।

path: A → C → F → J (A থেকে J পর্যন্ত)

(*) Topics:

Tree	Binary tree
Node/Vertices	C.B.T
edge	m-ary tree
Root - Leaf	Path.
child - Siblings	
parents	
Level	

(*) Tree is a acdyelic.

Tree has no direction.

Tree will have more nodes than edges.
